

D102 Community Events

Cyberbullying

Come participate in the third in a series of four events designed to bring local, national and international perspectives to an ongoing conversation on life and learning skills for this 21st Century. Parents of Aptakistic Junior High School students will find this workshop to be a followup to the student assemblies provided earlier in the day for seventh and eighth grade students. All parents are encouraged to attend.

A Parent Workshop with Jerry Ackerman

Jerry began his career as a teacher in Hawaii. He then became the Director of U.S. Operations for a large non-profit, student organization. It was from that point when Jerry began speaking to students. For over ten years, Jerry has been speaking nationally and internationally to students and adults on topics relevant to parents and youth in these tumultuous times. His commitment to his audience's growth is evident in his talks on leadership, attitude, communication, education, and change. He dares each and every person in the room to take personal responsibility for their choices - and their success.

Please join us in welcoming Jerry Ackerman on January 25th at 7:00pm.

What: Cyberbullying: A Parent Workshop

When: January 25, 2012

Where: Aptakistic Junior High School

Time: 7:00pm - 8:30pm
